

File Paths

A file path describes the location of a file

There are two type of file paths:

- 1. Absolute File Paths**
- 2. Relative File Paths**

Absolute Path

An absolute path is the full URL to a file

Example:-

```

```

Relative Path

A relative path points to a file relative to the current folder.

Example:-

```

```

Example of Relative paths

Path	Description
<code></code>	The "picture.jpg" file is located in the same folder as the current folder
<code></code>	The "picture.jpg" file is located in the images folder in the current folder
<code></code>	The "picture.jpg" file is located in the images folder at the root of the current folder
<code></code>	The "picture.jpg" file is located in the folder one level up from the current folder
